Enroll in Class

Enrolling in a class is a multi-step process that includes selecting and confirming your course selections along with verification that you have read all the Class Notes. In addition, all classes that are not taught face-to-face must have a predominant location identified as to where the course will be taken.

Adding a Class

1. Click the Manage Classes tile on your Student Homepage.
2. Click Enroll to start the enrollment process.
3. Click the Add tab to begin your class search. If more than one term is open for enrollment or enrollment changes, you will be offered a choice of terms. Select the appropriate term from the options and click Continue.

4. If you know the class number of the course, enter it in the Enter Class Nbr field and click Search. Note that there is a difference between the class number and the catalog number:
   - The class number is tied to a specific section of class that is found in parenthesis next to a class. The class number for Spanish 2003-910 (7852) is 7852.
   - The catalog number is a four-digit number that immediately follows the subject. The catalog number for Spanish 2003-910 (7852) is 2003.
5. To find all classes click the **Class Search** radio button. Click **Search** to open the **Class Search** page.
